 S - Slope  
 S - Stock  
 L - Lines  
 O - Obstacles  
 W - Wind

## Pre Flight Checklist

Appropriate clothing  
 Backup battery  
 Water & food  
 Relief system  
 Tie down kit  
 Rain shell  
 Bug spray  
 Patience

Airport	Runway(s)	Elevation (MSL)	Frequency
Mansfield	03/21	2,272'	122.9
Waterville	07/25	2,645'	122.9
Coulee City	07/25	1,800'	123.0

Your flight is automatically scored by emailing your .igc trace to: [sgc@soaringtasks.com](mailto:sgc@soaringtasks.com)

A summary of completed tasks is immediately emailed back.

The fastest flights are recorded on slips, magnetized to the task boards, and ordered from fastest to slowest - top to bottom. Adjust the slips to maintain this ranking as required. Complete a slip with this information:

Pilot Name(s)	A/C & Reg	Date	Ranking Metric
---------------	-----------	------	----------------

For a new, faster flown task once the board is full, wipe the slowest slip clear to make it available. Complete it, and place it back on the task board in order - fastest on the top.

If the task fails the test by email, but is proven good on SeeYou, an OO can sign the slip with a validated time. Please share constructive feedback, or your experience with the platform through [soaringtasks.com](http://soaringtasks.com).

To retrieve a file including turnpoints and tasks for the club's Proving Ground, send an email to the address above with the word "task" anywhere in the subject. The club Proving Ground .cup file will be promptly delivered as an attachment to the requesting email address.
